Reasons for Allowance

The following is an examiner's statement of reasons for allowance: Applicants' method for purifying isopropyl chloride is unobvious over the prior art of record. Although the closest prior art of record (US Pat. 1,825,814) teach a method for purifying isopropyl chloride, comprising treating an impure isopropyl chloride mixture with sulfuric acid before distilling the treated crude isopropyl chloride, the prior art of record does not teach or suggest the invention as presently claimed, wherein an impure isopropyl chloride mixture is treated with a chlorinating agent to produce a mixture containing isopropyl chloride and chlorinated impurities. All claims (1-40) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
